SUMMARY

Data Analyst with years of experience building prediction and recommendation models, analysing business data, performing feature engineering and data manipulation. I enjoy exploring the relationships between variables, and translating data into models that can give actionable solutions, insights and directions for businesses.

TECHNICAL SKILLS

- **Programming Languages**: C#, Python, SQL
- **Programming Frameworks and Libraries**: Scikit learn, Pandas, Numpy, Matplotlib, BeautifulSoup, Selenium, Asp.net, MVC5, Dapper, LINQ, Web Api, etc.
- **Cloud Technologies**: Apache Spark, Azure Databricks, Azure Data factory, Office 365
- **Visualization tools**: Power BI, python
- **Database Systems** : MySQL, Ms Sql Server, Azure Data lake(Gen2)
- **Computing**: Design and implementation of efficient Data Structures and Algorithms.
- **Software Engineering**: Object Oriented Design and Development, MVC Pattern, Documentation.
- **Development Environments and Tools**: PyCharm, Visual Studio 2017, Anaconda, Visual Studio Code, Jupyter notebooks, Sublime Text.
- **Version Control**: Github, Azure DevOps.
- **Abstraction, Analytics, Effective Communication, Design, Interpersonal and Problem-Solving skills.**

EDUCATION

Obafemi Awolowo University, Ile-Ife, NG.

BSc (Hon.) Computer Science with Economics | 2011-2016|

Thesis Topic: Development of a Web Based Project Recommender System

PROFESSIONAL EXPERIENCE

Organization: Sidmach Technologies Nigeria Limited (Feb. 2019 – Present)
Department: Technology
Role: **Junior software developer/data analyst**
Responsibilities:

- Data extraction, transformation, loading and analysis using Azure data platforms
- Data cleansing and pre-processing
- Developing a course recommender system
- Collaborate closely with other team members to plan, design, and develop robust data solutions.
